Tiling: For all the obvious reasons

Improve Stands and Crop Vigor

Improve Stands and Crop Vigor

Improve Crop Health

Improve Crop Health

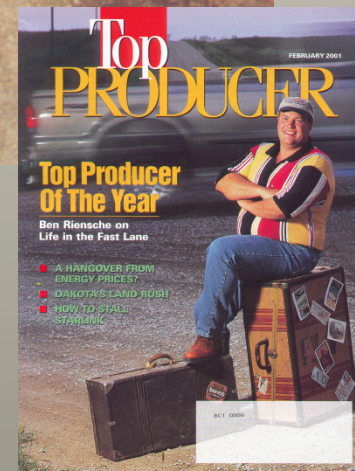

Improve Machine Efficiency and Reduce Compaction

Improve Timeliness

The Northern Cornbelt has
tight timeframes!
This tractor was planting corn
four days later! Late April, 2001

Cut Costs by Reducing Tillage
Dry Soils – Better For No-Till

Reduced Tillage Conserves
Fragile Soils & Improves Tilth

Control Erosion

Drainage Installation: Not just a cash and carry purchase

Good Equipment is Everything

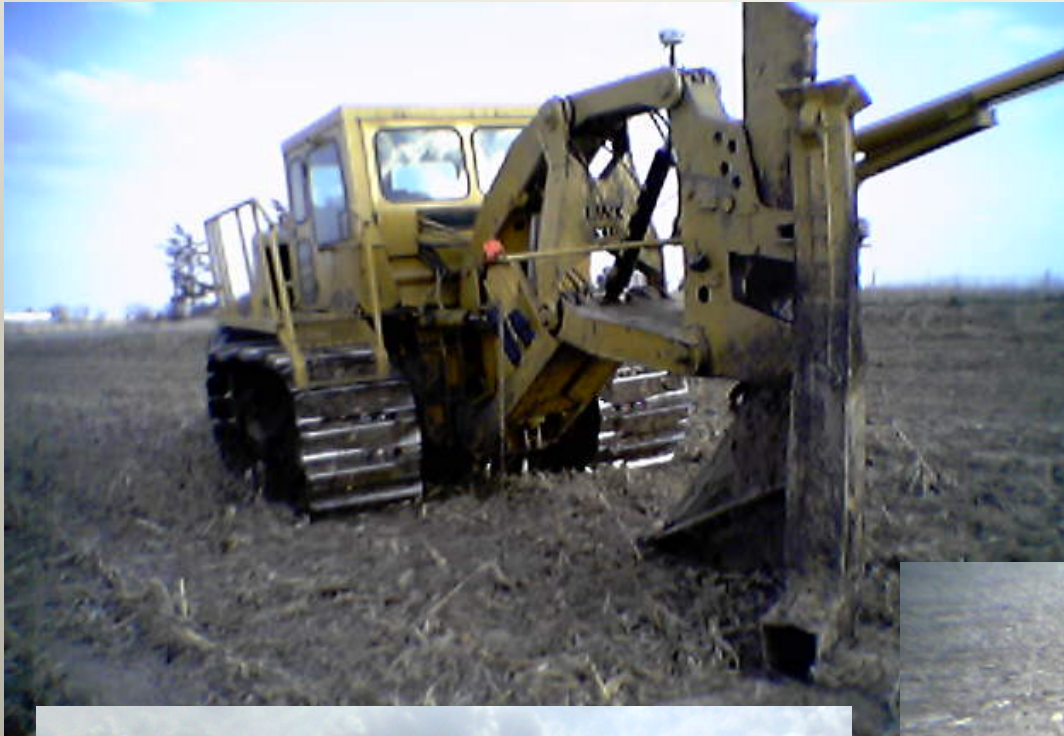

It Takes Support Equipment, Inventory, People and Hard Work

Rarely is the project just drainage

Putting in the pipe is just part of the work

Tools to make the job easier
